File No. of 195 . Mysore Government Secretariat

AGRICULTURE & FOREST DEPARTMENT
FOREST SECTION

The North Kanara District Co-operative Tile Manufacturing Society Ltd. has been granted 20 acres of land for Tile Factory at Kasarkod for the purposes of the said factory. The Managing Director of the Factory has pl. ab- brought to the notice of the Government that the Society has constructed a pukka road of 20 ft. wide within the factory area. The Managing Director has also ~~brought~~ informed the Govt. that the Board of Mineral Development has undertaken the extraction and export of iron ore and this ore has to be transported from the mines area to the harbour point by road. The General Manager, Board of Mineral Development, it is said, has inspected the site for this road and has indicated that the road should be continued from the end of the Tile Factory road to the Harbour point. This means that the road which was exclusively meant for the purposes of the Tile Factory has now to be thrown open for public purposes. The area to be occupied by the public road in the opinion of the Managing Director comes to nearly 2 acres for which Society has been paying a rent to the State Government. The Managing Director has requested Government, in the circumstances that the Society may be given an area in the substitution for the area now utilised for public road purposes specially for the transport of

5

Serial No.

iron ore extracted by the Board of Mineral Development.

6 The C.C.F. who was consulted in the matter is of the opinion that since the Forest Department is in no way responsible if the Society has on its own accord thrown open a bit of road for the public use and there is no alternate area in lieu of the road thrown open for public use which can be leased out to the Society. The C.C.F. has therefore rejects the request of the Managing Director. Before we inform the Managing Director in terms of the reply received from the C.C.F., we have to consider one aspect of the question viz: whether the Board of Mineral Development could make alternate arrangements for the transport of the ore in case the Society closes the road for them and make it exclusively a private road for the purposes of Society itself. If the Mineral Board makes alternate arrangements there would be no necessity to consider the request of the Managing Director. Otherwise the Society will have either to recover the proportionate rent for this area from the Mineral Board or seek additional area elsewhere to compensate this area covered by the Road or alternatively to seek reduction in the rent payable to the Department. Before we examine these aspects it would be better if we obtain the remarks of the Commerce and Industries Department on the following points:-

A 1) Whether the Board of Mineral Development can make alternate arrangements for the transport of their

File No. of 196 .

Mysore Government Secretariat

Serial No.

ore without using the road built by the Tile Factory;

2) Whether the Mineral Board is agreeable in the absence of any alternate arrangement to pay to the Society a proportionate rent for the area covered by the road in case the Board of Mineral Development has to use the road of the Society.

A

We may examine this question further after we hear from the Commerce and Industries Department in the matter.

OFFICE OF THE MINISTER FOR FOREST & TRANSPORT
No. 4556
8 - AUG 1960

Sub:- Grant of land for the Tile Factory at Kasarkod.

Ref:- Govt: order No.AFD 3 FLD 1958 dated 14-8-1959.

Sir,

As per the above order of the Government, the Forest Authorities has delivered possession of 20 acres area and the same is now in the possession and enjoyment of my Society for the purpose of this first Factory at Kasarkod.

2. For the facility of economic transport of raw - materials and finished products within the Factory premises, my Society constructed a pucca road 20 feet wide. During your visit to the Factory in November last you had inspected the road works and were pleased with the work.

3. Now the Board of Mineral Development Mysore State has undertaken the extraction and export of iron ore from the Apserkond Mine area nearby Kasarkod village. This ore has to be transported from the mine area to the harbour point by road. The General Manager of the Board of Mineral Development has personally inspected the the site for this road, and found that the road should be continued from the end of our Factory road to the harbour point. For this purpose it has become necessary to utilise our road also. Thus the private belonging to the Factory

has been thrown open for public road purposes within the area leased and delivered to my Society as above said. The area thus occupied by the public road comes to nearly 2 acres, for which my Society has been paying rent to the State Government.

I now request you to give me new area in substitution for the area now utilised for public road purposes specially for the transport of the iron ore extracted by the Board of Mineral Development. This new area may be marked contiguous to the area already delivered to the Society.

Hope that you will be pleased to grant the reasonable fequest after proper enquiry.

Yours faithfully,

(R.N.KAMAT)
Managing Director

FOREST DEPARTMENT
16
SECTION
12/6
M G S

An area of 20 acres out of Forest S.Nos.217, 218, 219 etc., of Kasarkod was granted to the North Kanara District Cooperative Tile Manufacturing Society for establishing a tile factory as per Government orders No.AFD 3 FLD 58 dated 29-4-1958 and dated 14-8-1959. It is reported that for the transport of raw material and finished goods within the factory premises, the Society constructed a 24' wide road within the leased out area and that this road has now been thrown open by the Society for public traffic and particularly for the benefit of the Board of Mineral Development for transport of iron ore from the Apsarkonda Mines to the Kasarkod Port. The Society therefore requests for grant of an equal area in exchange for the road thrown open to the public which comes to 31536 Sq. Ft. This Department is in no way responsible if the Society has on its own accord thrown open the bit of road for public use and hence no alternate area in lieu of the road thrown open for public use can be leased out. In view of this the request of the applicant may be rejected.

The application is returned herewith.

Yours faithfully,

V.S. Rai Kim

Chief Conservator of Forests.
